Water, Water, Everywhere!

Sprinkler Spruce Up

When starting up your automatic irrigation system, check for leaks and misdirected spray heads. Set your control box to water as needed according to our Alternate Day Watering Ordinance: odd addresses on any Tuesday, Thursday, and Saturday; even addresses any Wednesday, Friday, and Sunday. Then, set your rain sensor to "activate." This applies to all systems using potable water including hose sprinklers.

April Showers

Storm drains connect and direct rainwater to nearby creeks and streams. Help keep our waterways clean and clear by keeping grass clippings and fertilizer on your yard and not in the street where they can easily wash away.

Volunteer to spread the word by labeling storm drains in your neighborhood.
